Summer Initiative Activities (2018-19) - Class 3

Dear Parents,

This summer help yourself and your precious sons to experience something that will help them inculcate habits and hobbies for life..... something they will enjoy and value..... that will help them form an attitude or way of living.

Involve your child in all the routine activities at home.

- Encourage him to be a part of the **menu planning** at home - taking into consideration both health and taste. Let him get a sense of achievement by helping him to make and create simple salads, sandwiches, shakes and lemonade.
- **Read the news headlines with him** daily and discuss important happenings and issues while explaining them.
- Motivate your son to make his own **green corner** where he plants seeds and experiences the joy of raising plants through his daily care for them.
- Teach your son how to **wash his own undergarments** and fold his clothes.
- Ensure that the **family has as many meals together** as possible. Meal times are good for exchanging notes and discussing issues that concern the whole family. Children learn to interact from what they see – so be careful to be good role models.
- Make it a point **to socialize with your friends and relatives** along with your son. This will help him to form relationships and strong bonds.
- **Go for a picnic** – it is an excellent way of unwinding and spending time together as a family and with nature.
- Go through **old albums with your children** and share your own childhood stories with them.

We wish you a wonderful summer break and hope that the pointers given above will be followed in daily routine and help to make this holiday more fruitful and enjoyable for the whole family.

Every Drop Counts - the 'WATER' project !!

(in support of the UN sustainable development goal –

'Clean Water and Sanitation')

Instructions

1. Use **ONE Scrap file** to complete all your work in it.
2. The child **MUST** be encouraged to do all the work on his own, with guidance from the parents.
3. All the work should be **HANDWRITTEN**.
4. Original drawings / illustrations and creative use of ' BEST OUT OF WASTE' will be appreciated.
5. During the vacations, boys must continue to read books in both English and Hindi to enhance their **VOCABULARY**.
6. Prepare for the **HINDI SPELL WELL**.
7. Read each task carefully and use 2 – 3 pages of the scrap file to complete it.

ENGLISH–

Write a paragraph on the importance of water in our lives titled :-

A DAY WITHOUT WATER

describing what would happen if we do not get any water for a day.

(word limit – 80 words) Draw / illustrate to support your paragraph.

S.ST.

1. Make a list of all the oceans in the World.
2. Make a list of ten main rivers of India.
3. Make a list of five sources of water. Draw/illustrate in support of it.
4. Read about 'RALLY for RIVERS' campaign and write down a few facts about the need to save our rivers.

EVS-

1. Make a **collage on water pollution** – telling us about the many ways in which we are polluting water.
2. Make a **poster** to spread awareness about how to stop polluting water. Write a **slogan** for it.

HINDI

1. जैसे कि हम जानते हैं कि 'जल ही जीवन है'। जल के बिना जीवन असंभव है। इसलिए जल को बचाने के लिए कौन-कौन से तरीके अपनाएँगे, 8 से 10 पंक्तियों में लिख।
2. Hindi Spellwell की तैयारी करें।
3. पठन कार्य प्रतिदिन करें। जैसे समाचार-पत्र, कहानियाँ आदि।

MATHEMATICS

1. With the help of your parents, make a **table of the quantity of water used** in these activities :-
 - i) Washing hands
 - ii) Brushing teeth
 - iii) Bathing - one bucket of water
 - iv) Making a cup of tea
 - v) Watering a plant
 - vi) Water stored in a flush tank
 - vii) Washing a car
 - viii) Water stored in overhead tank
2. Arrange all these quantities and find the sum.
3. Now, write the sum in words.

LIBRARY

Read the classic reader which has been given to you from school. Make a list of characters in story in your library notebook and write 1 adjective for each character.

Note :- Prepare yourself for the Quiz based on the book as there will be an MCQ Quiz

GENERAL AWARENESS

1. Visit a water supply and pumping station in your locality with your parents. Tell us about your visit.
2. Also, see the water meter installed at your home and note the meter reading.
3. Write your own pledge on how you will keep water clean and save it too,
